Hard Pahokee-B.G. Grid Battle Ends 12-12 Tie

Rams Match Devil's Score In Final Minutes of Game

Climaxing a week of pep rallies, parades, bonfire and snake dance the two traditional Glades rivals—Belle Glade and Pahokee—battled in a hard fought game at Laid Field to a 12-12 tie Thanksgiving Eve.

A crowd estimated at 5,000 filled the stadium to capacity to witness the Rams and Blue Devils struggle to a 0-0 draw in the first half.

Gaining the most yardage in the first half, the Rams had to strike quick blows in the warning minutes to overtake the Blue Devils 12-0 lead.

The Blue Devils gained their lead on two sensational 70-yard touchdowns passes when Belle Glade rallied.

Belle Glade was awarded the Bill Young Memorial Trophy in a hand ceremony at the game conclusion as they were already in possession of the cup from last year's game.

Belle Glade achieved 13 first downs against four by the host. They outgained the Devils rushing and making good nine of 19 passes for 123 yards, but the Devils matched the 12 points on the scoreboard by the only two touchdowns they completed out of nine attempts.

The charging Belle Glade line rushed Quarterback Carney Wilder and gave him little chance to click on his aerials. Repeatedly the local heavier team pushed to scoring territory but the staunch Pahokee team rose up to stop the ground game until the closing quarter.

In the first half the Rams got to the four yard line once but were stopped.

PROMINENT LECTURE DISCUSSES FLOWER ARRANGEMENTS HERE

Mrs. Ivan Van Horn and her club members were hosts Monday to Garden Club members of the Pahokee and Clewiston club at an all-day meeting when Mrs. Paul Ochiltree of Miami Beach lectured on flower arrangements.

Among the fifty or more in the audience were Mrs. H. M. McIntosh of Pahokee and several members, Mrs. A. O. Ward of Clewiston and the State Treasurer, Mrs. U. T. Koch also at the Clubhouse.

A luncheon was served at the Clubhouse between the two sections.

Mrs. Ochiltree modeled four gardens of her own design made from native products of field, garden and forest combined with throwaways from the household, along with Mrs. McIntosh, Mrs. Van Horn and Mrs. Ward.

Mrs. Ochiltree background of national activity and interest emphasized her enthusiasm for the native materials available in the Glades for flower arrangement and originality in hat design.

Shootin' Blanks

By Pauliste

Thanksgiving passed here without much confusion and comment outside of the traditional. Every time the season revolves around the calendar a story which could have happened here on the special day has become a citizen noted for initiative, ideas and business acumen. His girl was not the least among those he hoped to impress.

The ambitious one conceived an idea the like of which the world had never heard before to make the merchants wealthy, the populace happy and himself famous.

Pauliste was asked to get a big turkey to set off from the tower in the town hall for which citizens would scramble.

Blakely, the young man, had the honor of launching the turkey into the air.

Cows—Common, 16.75, 20.00, Bull—Common, 21.00, 22.50, Inferior, 22.00.

Builder Of Better Mouse Traps In Belle Glade

Another builder of a better mouse trap is residing here in the industry is receiving attention.

Clyde Dooville, independent produce broker, has developed a system for coordinating with the packing process. It is designed to cut down on labor requirement and cost of the process. His system is currently being used on a trial basis at the Pioneer Packing House and so far is proving effective.

The system works like this: An additional variable speed conveyor chain moves behind loading funnels of bean units. Hamsters are secured to the chain by pocket attachments. As the hamper nears the bean chute, it strikes a lever which allows the hamper to fall into the time the hamper completes.

RAM PLAYERS GUESTS AT F.L.A. MIAMI GAME

Members of the Golden Ram team—Alvin Leathers, 8111 Burke, and Winnie and Doug Leavitt—were special guests of the University of Florida team at the game recently in Gainesville.

The local representatives were among the 100 high school football players allowed to sit on the bench with the Florida team during the game.

Other features scheduled for them were dinner at the training table, barbeque and dance.

At the game, the Florida team was sponsored by the players.

National Guard Member Receives Promotion

Mr. Cluke M. Lawrence Jr., Agriculture teacher at Clewiston and a member of the Company E National Guard, has been promoted to the rank of 2nd Lieutenant in the 21st Infantry, according to Jack Rashley, local administrative assistant.

Radar Is Now A Highly Esteemed Guardian Of The Gulf Coast As A Hurricane Sleuth Says News

The July issue of the Chemical and Engineering News carries an illustrated story of the hurricane warning system.

Every time the season revolves around the calendar a story which could have happened here on the special day has become a citizen noted for initiative, ideas and business acumen. His girl was not the least among those he hoped to impress.

The ambitious one conceived an idea the like of which the world had never heard before to make the merchants wealthy, the populace happy and himself famous.

Pauliste was asked to get a big turkey to set off from the tower in the town hall for which citizens would scramble.

Blakely, the young man, had the honor of launching the turkey into the air.

Preliminary Plan Of City Drainage Being Considered

Plan Calls For Nine Pumps To Drain 24 Inches In 24 Hours

To eliminate damage and undesirable effects of standing water such as prevailed in the city after the recent hurricane, a preliminary drainage plan has been drawn up by City Engineer John T. Pickett and presented to the city commission for consideration and study.

Designed to remove three inches of water from the ground within 24 hours, the plan provides that nine pumps be stationed in spaced areas throughout the town. This system, which could be installed at a cost of \$15,000, furnishes as rapid a runoff as is economically possible, according to Pickett.

Overall long range drainage design specifies that streets be placed in the center of the water drainage toward section pumps. Pickett cautions that in this plan as in any master design, one cover the area only after adequate study as they may affect overall efficiency of operation.

Each plan detail is laid out to coordinate in the overall system of a series of progressions. The plan calls for a power unit to be installed in the existing pump in Northwood Gardens.

Unit two includes the terminal area. The pump would be placed at the intersection of the county road and N. W. 8th Street.

Unit three, the contiguous area, would have a pump on the county road and N. W. 12th Street.

Unit four includes the area north of the Hillsboro Canal and east of road 15 to east city limits. Pump would be placed in the center of the area.

Pumps in units four through eight would be located on the line of the Metropolitan District ditch on the south side of the city limits.

Unit four includes everything west of S. W. 4th unit five territory west of Main and east of S. W. 4th; unit six east of Main and west of S. E. 8th and unit seven east of S. E. 8th and west of S. E. 10th.

First Aid Pictures To Be Shown At Civilian Defense Council Meeting

The Civil Defense Council has scheduled a meeting for Tuesday, November 28, 8 P. M., for the purpose of setting up local first aid training.

Mr. Dick Morris, director of operations for Belle Glade, Mr. Dick Morris, director of operations for Belle Glade, Chapter of American Cross will show pictures on civilian defense first aid.

Everyone is urged to attend.

Reflectors Placed At Dead Man Curve

First Step of the mission to eliminate the traffic hazard between Dead Man's Curve and the State Road Department placed reflectors on both sides of the turn at about 20-foot intervals.

Whether preliminary success is an echo of the editorial, the result in this paper last week has not been determined definitely.

Whatever the cause, the remedy is welcomed by people of this section although they still hold out for entire elimination of the dangerous road twist in the future.

Importance of fixing the curve is emphasized by recent designation of federal highway 441 which includes the dangerous section. Increased traffic will travel over the route.

CIVIL SERVICE DEPT. ANNOUNCES POSITIONS

More than 400 physically fit young men are wanted to fill policeman jobs in the Metropolitan Police Department, Washington, D. C., during the next year. About 150 positions must be filled during the next 90 days. The U. S. Civil Service Commission in Washington is now accepting applications for the positions.

The entrance salary is \$3,077 a year. Annual salary increases are given for 5 years to those who whose work is satisfactory. After 5 years of duty, the men become eligible to compete for promotion to higher-paying positions.

Applicants must be between the ages of 21 and 31, must be at least five feet, seven inches tall, and must weigh at least 145 pounds. They must be in sound physical condition and free from marked defects. They must pass a written test but no previous training or experience in police work is necessary. Persons who are appointed will be given thorough instruction in all phases of their duties.

Men who wish to be considered for these positions may obtain further information and application forms from the Commission's Local Secretary, Mr. M. K. Wright, located at Belle Glade Post Office, or from the U. S. Civil Service Commission, Washington 25, D. C. Applications will be accepted until further notice.

ALLEN CONSULTS ON AGRICULTURAL PROBLEMS AT EXPERIMENT STATION

Dr. Robert J. Allen, Jr., as a part of his duties as a consultant to the Glades pertaining to agriculture in a meeting with Dr. R. V. Allison at the Everglades Experiment Station last week.

According to present plans, Dr. Allen with headquarters at the Bornton-Lake Worth Field Station where W. A. Hills, horticulturist, is in charge. He plans to devote study to pasture growth, grain and other feed crops. These

SMITH TO OPEN MARKET NEWS OFFICE MONDAY

H. L. Smith, veteran market reporter, will be in charge of the production and marketing administration's fruit and vegetable branch seasonal market news office here to open Monday at the north end of the Robin Hocking House.

Opening of the news office was delayed because of hurricane damage to a maturing vegetable crops.

Smith will issue daily sheet reports including F. O. D. prices and daily prices of the terminal markets. He was formerly in charge of the market news office at Pompano Beach.

LORING RAUL ELECTED PRESIDENT FARM BUREAU

Loring Raul, prominent Sarasota citrus grower, was re-elected president of the Florida Farm Bureau today at the state convention in Daytona Beach. During the past year, Mr. Raul has spent much of his personal time with the fifty County Farm Bureaus throughout the state as well as with the American Farm Bureau in Washington and Chicago representing Florida on national agricultural problems. Also re-elected were: E. H. Finlayson, Greenville, well known north Florida farmer, vice president; and John Ford, Orlando, executive vice-president.

CITY RECEIVES \$188 IN CIGARETTE REVENUE

The city received \$188.67 cigarette tax return from revenue collected in September according to a recent report from Lewis M. Scott, director of the State Beverage Department.

Other lake municipalities received: Clewiston, \$1,256.33; Lake Wales, \$1,468.92 and Pahokee, \$1,510.80.

Total amount collected was \$1,249,129.68 which \$21,791.39 will go to the Florida State Hospital at Catfishhook, Scott states.

Legion Auxiliary To Meet

Thelma Morris and Marvin Vidusa will be hostesses for the regular Monday night meeting of the American Legion Auxiliary, 8 p. m., November 27, at the Legion Hall.

President Edith Kirkman urges all members to bring their dollar gift packages to the meeting of the month to assist for the Annual Joy Shops at Bay Pine and Pratt General Hospitals.

Highway 441 To Bring Increased Traffic Thru Cities East Of Lake

Struggle for designation of the federal highway east of Lake Okechobee from Holopaw through Belle Glade reached a successful conclusion recently when official designs were placed.

Attractive advertising signs are being designed through the personal efforts of municipalities along the route.

The new federal highway will have the effect of diverting a large portion of tourist traffic from west of the lake. Following the original action, the local chamber of commerce is now organizing a tourist training and planning program here.

Campaign for designation began about a year ago and continued through slow steady progress to its recent finish.

Charlie Fontaine and Guy D. Wood, Jr., were initiated into the lodge during the meeting. The lodge during the meeting, presented the plan of the grand exalted ruler for the year.

Approximately 200 local members and visitors attended the special meeting when Poland, Jr., district deputy to the grand exalted ruler of the Florida south central district, under the direction of W. E. Pope, chairman of the entertainment committee.

Production Of Sugar From Sawgrass Muck Is Proving A Stable Glades Economy

Our operation and resultant success in sugar production at Okechobee has convinced The Board that we have a sound economic production operation. We have appropriated the funds with which to add to the plantings at Okechobee and to bring grinding and refining capacity in line. We are pleased with the general improvements in property and management.

The above statement of President J. D. Lawrence of the Bank of Okechobee, with full approval of the Chairman of the Board and Directors, G. B. Loring of Winter Haven, Fla. was made during a meeting held at Okechobee, Fla. on November 24, 1950, and attended by Board members from the Carolinas, Georgia and Florida.

Mr. Loring, General Agent and President of the Federal Intermediate Credit Bank and Mr. Julian H. Scarborough, President of the Federal Land Bank and Production Credit Corporation were also members of the Farm Credit administration family attending.

Dr. Arthur G. Keller of Baton Rouge, La., and E. W. Hester of Jacksonville, in their capacities as Consultants discussed problems with the Board.

Production of sugar in the Glades is not new, nor is the soundness of its economy as an agribusiness for the Glades. The production of sugar in sawgrass muck has not been successfully undertaken until now. The Bank for Okechobee has been successful in its plans to develop cold, warm and warmer lands so that the grinding season extends up to 180 days by moving to maturing canes on warm lands as Jack Frost becomes more evident each season.

School News

By Gene Matheson

Dance

There was a big, badie Hades Day in the school gymnasium Saturday night. The dance was sponsored by the P. H. A. girls and proved to be a big success. All the girls asked the guys and an admission of 50 cents was charged. The music was good and everyone danced. The gym was all decorated for the gala occasion. It was enjoyed by all and if you missed it, you missed a good time.

Pep Club

Many meetings have been called for the pep club the past few weeks. Arrangements for the Pahokey game were the topic of conversation. Tuesday night all the kids gathered at the school for a big bonfire and pep rally. The bonfire blazed sky high and the cheerleaders led some yells. After this, all the kids jumped in cars and went through town blowing horns, singing and yelling. Some students even ventured into "enemy territory" (Pahokee). Everyone enjoyed the pep rally and a good time was had by all.

GRABER TEAM DEFEATS SINCLAIR-KIRCHMAN

Grabers' women bowling team pulled in from behind in the league when they beat the Sinclair-Kirchman team two out of three games a week ago Thursday night.

Mrs. Jerry McKee ranked high on the winning team with a score of 184 and Mrs. Jim Williams on Sinclair-Kirchman team with 158 points.

Clewiston teams also matched each other with Parker team beating chain. Three out of three. The Parker victory ties them for second place in the league with Sinclair-Kirchman.

Each team has three more encounters before completion of the competition schedule.

Continued From Page One

The course of units it is completed by the end of the year. A man weighs the hamper, girls place paper beads and workers cap it at the end of the year.

The system also includes a small conveyor belt which goes the length over the machines. Several women are continually picking paper beads from each machine and placing them in the hamper. The girls are then to produce to the end where hamper is finished.

The project originates two men and a girl who formerly sat behind each unit filling hampers and placing paper beads. The project was started by the direction where finishing operations are done.

According to the inventor the project will cost approximately \$300 per unit to install. Through the new system the packing house would save a great deal of money. The project would be approximately one fourth cent per package.

Thousands of school children and college students through out Florida have signed the "Freedom School" Have you? Be your name in the list. It is impressive document.

SHOOTIN' BLANKS

(Continued From Page 1)

One bearing tags such as "Spirit of the Glades Drug Store," "Spirit of Royals Store," and "Spirit of the Glades Appliances" started their wild and wayward flight to the ground. They had no respecters of landing spots and started crashing through plate glass windows, settling on session bonnets and hitting scrambling and fleeing bystanders in the back of necks.

Panic developed. Officials bailed Blukely to halt. He was understood and started sending the birds down by three and four and faster.

Conclusion—Blukely was nearly hung from the tower and the towns and populace were in shambles. No Blukely showed up in Belle Glade this year.

LEGAL NOTICES

A Public Hearing will be held at 3:00 o'clock p.m. on December 1st, 1950, at the City Planning Board in regard to the proposed rezoning of the City of Belle Glade, Florida, from Residential to Commercial, for the purpose of establishing a new business district. All interested parties are invited to appear and express their views.

CITY OF BELLE GLADE
Publish: Nov. 24th, 1950.

CITY SERVICE COMMISSION
NOTICE OF EXAMINATION
The City Service Commission will hold an examination for the position of Probationary Assistant City Clerk on December 1st, 1950, at 10:00 a.m. in the City Clerk's Office. The examination will be held in the City Clerk's Office. The examination will be held in the City Clerk's Office. The examination will be held in the City Clerk's Office.

BODENSTEIN TO SPEAK BEFORE ROTARY CLUB

Miss Margaret Bodenstein, health educator of the Palm Beach County Tuberculosis and Health Association, will present a health program at the regular luncheon meeting of the Rotary Club today.

PRODUCTION OF SUGAR

(Continued From Page 1)

It is in south Florida, for sugar is not only a highly heated industry, but the price is determined by "the book."

In these days of increasing bureaucracy it is encouraging to have a governmental agency—especially a lending agency—concerned with the sugar industry. The sugar industry is a business concern.

Jimmy Burns, A. F. Lever has been named as the new manager of the sugar industry. He is a farmer and a businessman.

He has a hand in writing the laws under which they operate and maybe the chief executives of the sugar industry. The officers to the soil, in origin, make the difference.

Here is a list of the Directors and their principal businesses:

Mr. Ayrcrig, Chairman is from Winter, Haven and is a citrus man. He is a member of the Board of Directors of the United Fruit Company.

Mr. John McKenzie as Mill Superintendent and Mac McIntrye, who used to be one of Pop Lord's assistants at the Brown Farm, as Agricultural Superintendent, and Mr. A. F. Lever as Director of the Sugar Industry.

The officers previously listed are not strangers to cotton, corn, vegetables and the trials of the farmer.

Mr. John McKenzie as Mill Superintendent and Mac McIntrye, who used to be one of Pop Lord's assistants at the Brown Farm, as Agricultural Superintendent, and Mr. A. F. Lever as Director of the Sugar Industry.

Revival Services Begin Sunday at Church of God

Revival services will begin at the Church of God, Sunday, November 26th at 7:30 p.m. with Reverend William Coleman and his wife from Port St. Joe, Oregon in charge.

Services will continue two weeks or longer, according to the needs of the church. The Rev. W. E. Emery, Pastor, will be in charge.

Glenn Club members grouped in back row (left to right): Jeanne Tedder, Donna Norris, Dorothy Kidder, and Anne Baldwin.

Second row: David Weisman, Jerry Berry and Kenneth Lutz.

MEETING OF P. B. COUNTY CATERIA MANAGERS HERE

A meeting was held last Saturday afternoon at the school cafeteria by the Palm Beach County School Food Service Association with Mrs. F. D. Stevens, local Cafeteria manager presiding.

Schools represented were Belle Glade, Pahokee, Canal Point, West Palm Beach schools, North Borough, Central Palmetto, Coniston, Military Trail, and Belvedere. Boynton School, McTaggart and Jessie, Boca Raton, Riviera, Lake Worth High and South Grade schools were also present.

Mrs. Ruth Lansing, County School lunchroom supervisor, reported on the National F. F. F. A. Convention held in Kansas City recently.

It was voted to cancel the December meeting, January meeting will be held at Palmetto School.

The Orientation Class will meet December 2, to complete the first year of the program.

Following the business meeting here the ladies were noon luncheon guests of Hendry County Lunchroom Association at Clewiston Cafeteria, after which the group enjoyed a trip through the Clewiston Sugar Mill.

Attending from Belle Glade were Mrs. Emma Webster, Mrs. C. W. Crook, Mrs. Jessie Leathers, Mrs. M. F. Farmer, Mrs. J. R. Cherry, Mrs. Noble Wynn and Mrs. F. D. Stevens.

SEACREST OVERPOWERED BY BELLE GLADE, '50

Build up for the traditional rivalry with Pahokee Wednesday night did not undermine the fighting power of the Rams in their tilt with Seacrest last Friday night.

They used short running plays to eat up yardage in gaining four touchdowns to Seacrest's one and a final score of 26-7.

Seacrest put up a strong fight, but it did not prevent the Rams from winning. The Rams tallied one in each of the four periods.

Lake Shore Elementary School

By Miss M. C. Ridgcomb
School Accredited

"According to a letter received from the State Department of Education, Tallahassee, Florida, Lake Shore Elementary met all requirements for placement among the schools of accreditation for the school term of '49 and '50."

Observes Anniversary
Last week marked an important epoch in the history of our school when its first anniversary was observed in an assembly program sponsored by the Fourth Grade.

From the playlet, "The School in its Beginning," one was able to trace the history of the school from 1928 and was able to see what progress had been made through the years. The conversation took place at Belle Glade at the Cato's residence, one bleak November day, Nov. 11, 1950, 5 o'clock p. m. when a group of girls were seated in the living room awaiting a club meeting. In walked Barbara and Geraldine

who had something very interesting to converse about. After the playlet, we stood and pledged our fidelity to our Alma Mater while Annie Mae Felton sang very softly "Bless This House."

The characters were Inez Cato, Geraldine Thomas, Barbara Jones, C. Edward Taylor, Bernestine Edwards, Annie Mae Felton, Thelma Colbert, Eva Mae Lawson and Betty Jean Flowers.

Short History of Our School
After the 1928 hurricane which destroyed the small house which served as a school for the children of Belle Glade, the County Board of Public Instruction undertook the task of rebuilding it. It was known as Rosewald School Number 52 later Belle Glade Elementary.

Mrs. Margaret Holmes of Palatka was the first principal and served the term of 1929. The first Parent-Teachers Association was organized in the fall of 1929 under the sponsorship of Mrs. Juanita A. Dean. This organization undertook numerous projects which added to the success of that first term about the living room. 28. Funds were raised for buying a piano and starting a li-

brary; free lunches were served children in attendance at the school. The grades were from one through eighth.

As a result of the continued growth of the community and school enrollment, four teachers were added to the staff between the years 1929-1939.

Early in the decade between 1929 and 1939 it was necessary to use the A. M. E. to house a portion of the increase enrollment. Every member of the P. T. A. became an Attendance Officer so as to make sure that children of school age attended school.

Serving as principals of the school were Mrs. Margaret Holmes, Mr. Hudson, Miss Hazel St. Clair, Professor Hinson, Mr. Okeh Mitchell and at present Mr. Charles McCurdy.

Much credit is due Mr. Joe Goriot, school janitor, who from 1936 to last year, worked faithfully to beautify and keep presentable the school site.

The enrollment continued to increase from less than 200 in 1939 to 522 in 1949. This increase came after the seventh grade students were transferred to the High School.

The Parent-Teacher Association has been under the leadership of Mrs. W. C. Taylor, 1943-1946 and Mr. E. M. Taylor from 1946 to present. Both have worked and are still working faithfully with the school personnel in an effort to make the school a better place for the instruction of all boys and girls.

The new building which we now occupy was constructed last year by the Palm Beach Board of Education and was dedicated Nov. 11, 1949. The name was changed to Lake Shore Elem. School.

District P. T. A. Met
The Bi-Annual meeting of the fifth district Parent-Teachers Association met at Lake Shore Elem. Saturday morning, November 11th with the president of Lake Shore P. T. A., Mr. E. M. Taylor, presiding.

There were approximately eighty delegates from various counties. Many expressions of welcome came from several citizens of Belle Glade—Rev. L. F. Vanderwater on behalf of churches, Mr. S. Pouncey, civic organizations, Mr. R. L. Lemott, schools of Glades area; Mrs. Ruth Timmons, County School Board, Mr. Arthur Mays, president, Fifth District Parent-Teacher Association gave response to all the speakers.

The theme of the association was "Community Action for Child Growth and Development." With a mid-century outlook it was discussed beautifully by several return speakers of Belle Glade: Mr. B. Sayles, chairman, opened the discussion followed by Mr. Charles McCurdy, "Impressive Backgrounds," Mrs. Sarah Creech, B. P. W. National Organization, "Child A Chance for A Healthy Personality" and Mr. W. C. Taylor, "Every Citizen's Responsibility." After the discussion by the discussants a question and answer period was held.

Mrs. Elizabeth Espy, State President of Fla. Congress of Colored Parents and Teachers made very encouraging remarks.

Serving as hosts were the Boy Scouts of Troop 68 and the members of Sixth Grade.

Music was rendered by the Pahokee Elementary, Lake Shore Elementary and Everglades Vocational High Schools of the Glades area.

Third Grade Presented Program
In keeping with the spirit of Book Week, the Third Grade under the sponsorship of Mrs. E. P. Oliver and Mrs. M. J. Evans made their first appearance in assembly Friday morning when they presented a playlet entitled "Books—Our Best Friends."

Everyone enjoyed the playlet and is encouraged to read books because they could be our friends, our hobbies and we could take imaginative excursions.

Everglades Vocational High

The Bobcats journeyed to Pompano, Florida, Saturday, November 18, to meet the Pompano Tigers in an exciting football game. The kickoff was at 3:00 p. m. The first touchdown was made in the first quarter by Freddie Davis, the right half-back of the Bobcats team. The second touchdown was made in the second quarter by James Hill, full-back of the team. The third and last touchdown was made in the third quarter by David Hill, left-end, also of the Bobcats. The score ended 19-0 in favor of the Bobcats. The game was highly enjoyed by everyone.

Student Council
The Student Council of Everglades Vocational High School is still working diligently in its

effort to improve the school's conditions. The council has a court consisting of a chief justice, six judges, and a clerk. The council holds its court every Monday after chapel. Members of the court are as follows:

Chief Justice, Herbert Collins; Judges, Bernice Rhodes, Ois Jordan, Mathew Paige, Ian Humphrey, Bernice Caldwell, Aldranna McKenzie; Clerk Ora D. Fields.

The students are cooperating nicely with the officers and members of the council.

N. F. A. News
The officers and members of the Belle Glade N. F. A. Chapter, under the supervision of Mr. J. J. Holliday, have been very busy preparing a school garden in front of the main school building. They plan to grow more than fifteen varieties of vegetables for the purpose of a school lunch program that will be supervised by Mrs. L. W. Childs. Plans are also being made to clear the ditch in front of the school of grass and bushes and plant ornamental shrubbery and flowers on the south bank. They hope to complete in the next two weeks.

The four year boys of this organization, along with William Flakes as co-advisor, have made plans to plant a one-fourth acre plot of a variety of vegetables on the west side of Lake Shore Elementary School. The main purpose of this project is to provide sufficient vegetables to support the lunch program in that school. The vegetables have already been planted. Some of them will be ready to use in about three weeks. These boys planned this project and are successfully carrying it out without Mr. Holliday's having to give them supervision.

Plans are also being made to break up the two acre plot now in their possession for a land laboratory plot.

Okeechobee Scout Troop 57
Monday, Nov. 20, 1950, the regular Scout meeting was held at the recreation center. After the opening ceremony, the Scout Master Rev. Penso made a brief comment on the Scout Law. The boys then went to their patrols and selected names for their patrols. The names selected for the patrols were Hawk, Eagle, and Black Snake.

New Bethel Baptist Church

Rev. W. Porter, Pastor

Sunday School was opened at the usual hour by the Sup. Dea. Sandy Kendall. The teachers taught their class. Lesson Sub. Christian Worship. The lesson was reviewed by Deacon Isiah Brown. The attendance was good. At 3:30 the City wide mission was opened with Mrs. Carrie Johnson and Mrs. Annie Lee Bleckley conducting a spiritual devotion. Mrs. Rosa House read for scripture les-

son. A short program was sponsored by Mrs. Rosa Lee Thompson. Mrs. Amelia House the Bible Expositor, brought greetings from the Greater South Florida association which had just closed in Lake Wales, Fla. We enjoyed having Mrs. Patterson of Ft. Pierce, Fla. visiting the city wide mission. She and her husband were spending the week end with Mrs. Georgia M. Dougherty.

At 6:30 p. m. the B. Y. P. U. was opened by the president Mrs. Ois Bell Love and the group captain. The B. Y. P. U. is progressing nicely with the leadership of their new president.

A contest was between the W. H. M. president and the Y. W. A. president. The Y. W. A. president won. Monday night a program was sponsored by Mrs. Susie A. Ouel. The program was in behalf of the Y. W. A. Jr. Mission and the Senior Mission as follows: Welcome address, Miss Annal Smith; Solo, Miss Earnestine Clark; Reading, Miss Dortha Mae Sampson; Solo, Master Clark; Reading, Miss Edna L. Pumps; Solo, Miss Altamere Williams. Guest speaker was Mrs. Bailey. The Physical Education teacher of the Everglades Vocational High School, Sub. Teen-Agers, Solo, Miss Carrie Mae Oneal. On Nov. 15, the Y. W. A. met at the home of M. Isiah Mae Williams, at the Okeechobee Labor Camp. The meeting was opened with a spiritual devotion. Officers were elected. A delicious repast was served by the hostess.

FLORIDA CATTLEMAN CAN FEEL EASIER

Florida cattlemen should be able to rest a bit easier since the dramatic battle to stop the spread of foot-and-mouth disease among Mexican livestock appears ended.

Cattlemen throughout the United States have watched the fight in Mexico with anxiety. Francis Cooper, Editor of the Florida Agricultural Experiment Station, recently returned from a tour of the area in which the gigantic eradication effort took place. Cooper gives a full report of his tour in the November issue of Florida Grower magazine.

He reported that a total of 594,627 diseased animals were slaughtered and more than sixty million vaccinations made. The infested area was approximately the size of Texas. No new outbreaks of the disease have been discovered since last December.

MECHANIZATION HELPS FARMERS, BUT MAKES THEIR RISKS GREATER

Rapidly increasing mechanization during the past few years has greatly increased the efficiency of Florida's farmers and, also, it has multiplied their danger hazards. There is much less danger of a farmer being hurt by an excited horse or mule now than there was a decade or more ago, but there is much greater pos-

sibility of him being injured by mechanized equipment than ever before. The risk of a farmer being hurt by mechanized equipment also is greater than the risk that was ever connected with horses and mules, even when there were record numbers of those animals on farms. Tractors and trucks have replaced horses and mules on hundreds of farms, and most farmers also have motor cars, and all of these machines are capable of injuring or killing their owners and others if they are not handled properly and carefully. Unfortunately, it is not uncommon for a farmer to be hurt by a tractor. A tractor may turn over on him, or his clothes may get caught in the machinery and he may be pulled into it, or he may be hurt in numerous other ways while operating a tractor.

Danger also lurks in trucks and in other motorized equipment, and, of course, there is danger, almost imminent danger, most of the time on the crowded highways when one is operating a tractor, truck, or passenger car. In the operation of any of these vehicles, the utmost care is essential for safety. Jumping off or on a tractor while it is in motion, driving a tractor too fast or on unsafe terrain, driving a truck or car at high speed, failing to stay on the right side of the road, taking risks in passing

other vehicles, and operating any kind of vehicle that is not in good working order may result in tragedy for the operator or for others.

In view of the great number of motor vehicles being operated by farmers and others today and because any tractor, truck or car is potentially a killer of its driver or others, it behooves every farmer and everyone else who operates such a vehicle to be as careful

as humanly possible in its operation.

Freedom Bell will ring everywhere throughout the Free World on United Nations Day, October 24. You can help fight Communism by contributing to the Freedom Bell and signing the Declaration of Freedom.

SOUTH BAY LAKE HARBOR

Mrs. E. M. Willis and son Johnny have returned from Tallahassee where they visited Mr. and Mrs. Raymond Green, Mr. and Mrs. Jack Madigan and infant son John Raymond. Mrs. Madigan and Raymond Green are niece and nephew of Mrs. Willis. Mrs. Willis also attended a Christian Science Church Conference at Mobile, Ala.

Mrs. Elizabeth Roberts has returned from the hospital convalescent from a recent illness. Her daughter, Mrs. Lyman Smith of Macon, Georgia came down to take charge of the family during her mother's hospitalization.

Mrs. Viola Dunnam, Mr. and Mrs. W. B. Wray and Mrs. R. L. Lovell from Friday to Sunday.

Mr. and Mrs. J. K. Willis and family have moved into the cottage recently occupied by Mr. and Mrs. C. O. Woodham who have moved to the J. C. Summerlin farm.

Mr. and Mrs. S. R. Ackman are entertaining R. S. Donaldson of Clewiston, Mr. and Mrs. J. W. Mathewson, Miss Dorine Mathewson, Miss Margarine Mathewson and Mary Mathewson at Thanksgiving dinner on Thursday.

Mr. and Mrs. C. E. Crichfield have returned from Gainesville where they attended the University of Florida vs. University of Miami football game.

Mrs. Edythe Eckman, Mrs. Olga Hardy, Mrs. Leslie Martin attended the Class-room Teachers Meeting at the Lake Worth Municipal Auditorium on Saturday where they heard an address by Dr. Frank Crane, famous psychologist. Mrs. Floyd

Wildner and Mrs. Marvin Davis also attended the lecture.

Mr. and Mrs. R. L. Lovell, Norma Jean and Lemar Lovell are celebrating Thanksgiving with her sister Mrs. Viola Dunnam, nephew and niece at Greenacres.

Mr. and Mrs. Julian Clark and children of Tampa are spending the Thanksgiving holiday with her sister Mrs. Spencelancin, and sisters, Miss Spencelancin and Miss Victoria Chalcian.

Mr. and Mrs. Adolph Driggers and three sons of Sarasota are spending Thanksgiving with Mr. and Mrs. Terry E. Driggers and daughter Anne.

Billy and Catherine Ferguson have returned from Cleveland where they spent several days last week with Judy and Tommy Weathers.

Clifford Allen BMG 2, arrived home Saturday on leave from service in Korean waters.

Mr. and Mrs. Curtis Miners, formerly of South Bay now living in Pahokee announce the birth of a son at Good Samaritan Hospital on November 14. Mrs. Miners was before her marriage Miss Ruthie Warren.

Mr. and Mrs. E. M. Van Landingham were hosts for the annual Willis family reunion on Thanksgiving. Mr. and Mrs. H. C. Willis, Mr. and Mrs. P. B. Willis, Frank, Dan, Dick and Doris, Mr. and Mrs. E. M. Willis, Barbara, Johnny and Joan, all of South Bay, Mr. and Mrs. W. H. Willis and Pamela of Miami, Mr. and Mrs. H. C. Jones, Alice and Sandra of Princeton, Mr. and Mrs. Caesar Van Landingham, Carol, Joe and Sam Van Landingham, Bobby, Sue and Billy Van Landingham of Belle Glade, Dr. and Mrs. W. E. Van Landingham of West Palm Beach were guests.

Mr. and Mrs. Floyd Abstein and daughters Judy and Linda of Fort Pierce spent Sunday with Mr. and Mrs. W. C. Allen and family.

Eric D. Hartline left Tuesday for Round Mountain, Alabama to bring his wife and mother Mrs. Maude Hartline home from a visit with relatives at that point.

Miss Virginia Larrick Visits Her Mother

Miss Virginia Larrick S Ph. 3 of U. S. Navy is visiting her mother at Lake Harbor on a 45 day leave and will report for duty on Nov. 22 at Jacksonville NAS with the Photographic Department.

Miss Larrick was recently graduated with top honors from Photographic Mate School, Naval Air Technical Training Unit, Naval Air Station Pensacola, Florida at Captain's Inspection and Graduation ceremonies held at "Photo School," Fort Barrancas, NAS on October 22.

Miss Larrick served in the U. S. Navy during the war years 1943, 1944 and 1945 and later attended the State University of Iowa at Iowa City, Iowa.

Captain A. D. Fraser, USN, Commanding Officer, presented the graduating certificates and prizes to winners of the "Picture of the Month" contest.

There were 14 WAVES in her class and 11 men who graduated at the same exercises from the Aviation Photographer School.

Karen Vadass Honored

Mrs. Alfred Vadass of South Bay entertained children of the third grade Friday afternoon at a winter rosette honoring her daughter Karen on her eighth birthday.

Guests were Genie Crichfield, Sandy Willis, Rebecca Woodham, Donna Jean Holt, Jimmie Lou Summerlin, Ronnie Bowen, Joyce Challancin, Roger Walker, Jerry Ward, Jimmie Challancin and Gene Challancin.

Thanksgiving Program

The South Bay School put on a Thanksgiving program Wednesday afternoon before the end of school for the Thanksgiving holiday weekend.

The program was in the nature of the story of the first Thanksgiving in pantomime and song. The Pilgrims, the Indians and the traditional Thanksgiving turkeys took prominent parts in the program and were played by children of the various home rooms. The first grade children played the part of turkeys.

The secret of happiness is not to do what one likes, but to be able to like what one has to do.

R. KAY GIVES VIEWS ON STATE BARBER BOARD

By Russell Kay

I certainly got all het up last week at the action of the Barber Sanitary Commission outlawing the old shaving mug and brush. I had written a column for which in Russia I had been banished to a hard labor in Siberia or shot at sunrise, and I realized that in this country I would probably have been "hated to pieces" by certain political cliques because of it, but, thank God, this is still a Republic and freedom of expression is still permissible.

As a believer in Democracy, Freedom and the Rights of the Individual, I always have been always will resent the efforts of any selfish group of political poobahs and petty penit puppets to rule and regulate the lives and actions of freeborn citizens.

Not long ago I had my say regarding the actions of an automatic Milk Commission in forcing the people of this state to knuckle down to its rulings and pay through the nose for milk despite the fact that honest dairymen frankly admit that their demand is unjustified and without merit.

With the action of the Barbers' Sanitary Commission in throwing out the old shaving mug and brush as well as hair duster, I felt compelled to train my guns on the Barber Board which I thought was feeling its way and had come forth with a lot of silly, dumb and asinine edicts nauseating to any intelligent citizen.

Then last Friday one of the members of the board changes his mind and the old brush and mug were saved by a vote of two to one. Earlier in the week the public prints heralded the amazing information that our Barber Board by power of authority granted it by beneficent legislature had ruled that from now on you and I would no longer enjoy the comfort and pleasure of the old fashioned lather and shaving brush, but, should we enter a barber shop and find our necks so fortunate as to be "next," must allow our barber to annoint our neck with a so-called "latherizer" and with his large hands work it into the skin. I was really tuned up.

Furthermore, under the original edict, our barber could no longer whisk the loose hairs from about our neck with the old fashioned neck duster. Under the ruling earlier in the week the barber would have had to brush off the neck with a folded towel or he could have purchased an air pressure device which would have blown loose hairs to kingdom come.

Looks like somebody got over the board, for out of the clear blue Florida sky one of said board members exercised the right to change his mind and did so. The result was that the old shooed as it was before.

Personally, I like old fashioned lather and a sterilized shaving brush and I see no objection whatever to having my barber brush my neck with a regulation feather duster, and I resent having any

dim-witted nincompoop stand up on his hind legs and try to tell me that I am so dumb and simple that without his care and attention I might die of some horrible and contagious disease or wind up in an insane asylum.

Maybe these Barber Board accretes thought they are fooling some people, but, brother they aren't fooling me, even a little bit. It seems that in order to have a few more years of their first ruling, the poor barbers would have had to invest in a new fangled machine at \$50 per throw to do the lathering that for centuries has been done with the old fashioned brush. Or, they could have bought an air-pressure machine to take the place of the old fashioned duster.

I don't know how many barber shops there are in Florida, but if you lay them end to end as the statisticians do, I am inclined to believe that there would be quite a few. Now if every barber shelled out fifty smackers for a new fangled machine simply because some state sanctioned board said he must "or else," it could run into a whole helluva lot of money in a very, very short time.

Florida needs a Barber Board just about as much as it needs a Haddock Board or a Rat Trap Board. The only possible excuse for its existence is from the standpoint of sanitation, and we have a very able and efficient State Board of Health that is well qualified and equipped to take care of this particular feature of the Barber Board.

The people of Florida never asked for a Barber Board, never asked for a Dry Cleaning and Laundry Board, or a Milk Commission or a State Board of Optometry or any of the other regulatory boards and commissions that have been inflicted upon them with no purpose or reason other than to serve the selfish interest of some particular group or industry. Wipe them all out and Mr. and Mrs. Citizen would never see an eye or turn a hair, and if the next legislature is smart that is exactly what it will do.

The new homes come equipped with every modern convenience—except low monthly payments and taxes.

Florida editors and publishers assembled for their 71st annual convention in Tampa recently, receiving encouraging reports from three speakers who outlined the work of both state and private agencies in "selling" Florida through advertising and publicity in newspapers, magazines, television, radio and

Mr. Dan Goldsmith, 3024 Curran Road, Louisville, Ky., owner of Coggin Cut Rate Store at 135 West Broadway, says there just aren't enough words in the English language to praise HADACOL correctly. He says he knows most folks don't realize what a change HADACOL can make in their lives if their systems are deficient in Vitamins B, B₁₂, Iron and Nicotin.

Here is Mr. Goldsmith's statement: "Before I started taking HADACOL, I was run down and nervous—and had a hard time sleeping nights. With my work in the store I have to spend sometimes 14 hours a day on my feet. Since I am in the retail business I saw how many folks were asking for HADACOL so I decided to try it myself. After the first couple of bottles I could tell a definite improvement. Now I have all the pep and energy in the world, my nerves are steady as ever and I really do get a good night's rest. I not only take it, but recommend it to all my customers. I praise the day Senator Dudley LeBlanc put HADACOL on the market."

• HADACOL Is So Different
Thousands are benefiting from HADACOL, whose systems lack Vitamins B, B₁₂, Iron and Nicotin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when iron is needed) to carry these great Vitamins and Nicotin to every body organ.

Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take you get your money back. Only \$1.25 for Trial Size: Large Family or Hospital Size, \$3.50. If you druggist does not have HADACOL, order it direct from The Leblanc Corporation, Lafayette, Louisiana. © 1949, The Leblanc Corporation.

other avenues. John P. Pennekamp, associate editor of the Miami Herald and chairman of the Florida Board of Parks and Historical Monuments, in an inspiring talk told of progress being made in developing and publicizing such attractions and predicted that in the years ahead the money now being invested in this work would return unbelievable dividends in increased travel to Florida.

Clay Lloyd, a member of the Florida State Advertising Commission, told how the agencies' efforts to develop summer travel had produced amazing results and outlined plans for continued promotion that would help increase tourist business and also attract homeseekers, investors and new industries to the state.

Richard (Dick) Pope, of Cypress Gardens, told of the independent efforts of his organization to gain publicity for Florida. He pointed out that not long ago the thousandth magazine cover featuring Cypress Gardens pictures had been published, and with colored slides he illustrated methods employed in developing the type of beauty and action pictures that appeal to the nation's editors. Not only has Florida had more cover pictures on national magazines than any other state, but has led the field in movie and television shorts, rotogravure pictures and syndicated features over the

ing syndicate services. Much constructive work was accomplished by the Florida Press Association during business sessions. A new constitution and by-laws was adopted that provides for the set up of regional groups and the election of six vice presidents, one for each congressional district.

Complete revision of the Newspaper Association of America was provided for and a special committee will undertake this work.

Eugene L. Matthews, publisher of the Bradford County Telegraph, Starke, was elected president for the ensuing year, succeeding A. P. Cooke, publisher of the Plant City Courier. Vice presidents named were George L. Burr, Jr., Winter Haven Herald; John McCloskey, Lake City Reporter; Curtis McFarlan, Gadsden County Times; Quincy, Glenn Springs News; and Radio Digest, Tampa, was appointed executive secretary and treasurer by the board of directors.

VETERANS INFORMATION

By Melvin T. Dixon
State Service Office
I want to urge all you veterans to retain your Government Life Insurance. I am referring to you veterans of World War I and II. This insurance is one of the most valuable assets you own. As a result of your service in the armed forces.

If you served at anytime between October 6, 1917 and November 11, 1918 in World War I, you are still eligible to apply for up to \$10,000 of U. S. Government Life Insurance, without cost at any VA Regional Office or Hospital.

As a veteran of World War II, you are eligible to apply for National Service Life Insurance up to \$10,000, provided you were on active duty between October 6, 1940 and September 8, 1945.

In addition to Term Insurance, six permanent plans are available: Life, 20-Payment Life, 20-Year Endowment, Endowment at age 60, and Endowment at age 65.

Lapsed term or permanent insurance may be reinstated within three (3) months from date of lapse, provided the insured is in as good health at the time of reinstatement as he was when the insurance lapsed. You must submit the necessary information to establish that fact, preferably on VA Form 9-352.

After three (3) months of lapse, a physical examination is required. You may obtain this examination, without charge, at any VA Regional Office or Hospital. Application should be made on VA Form 9-352b or 9-352c.

Term insurance may be reinstated merely by paying two monthly premiums. Permanent policies, however, may be reinstated only if all premiums in arrears with interest are paid.

Lost Checks—If you have lost or misplaced your Government check you should at once notify the agency that issued it, requesting that payment be stopped and substitute check be issued.

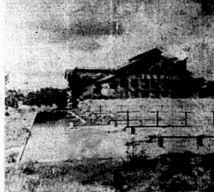

If you do not know the name of the agency then you should notify the Treasury Department, Washington, 25, D. C. You should state in your letter (1) the purpose for which the check was issued; (2) the date of the check; (3) the number of the check; and (4) the amount of the check. If you are seeking a replacement for a mutilated check it will be necessary that the old check be enclosed with your letter.

By Russell Kay
Florida's welcome key will be rolled out full length this month when AAA travel counselors, from 28 motor clubs in 14 southeastern states pay the Sunshine State a week-long visit.

Belle Glade Herald

Industrial Tourist Attraction

The plant mill of the United States Sugar Corporation at Clewiston is probably Florida's most industrial attraction. 32,000 visitors inspected the plant last season. The sugar harvesting season for 1950-51 got under way on Oct. 23 when cane graving started. The present crop is approximately one million tons.

The plant mill of the United States Sugar Corporation at Clewiston is probably Florida's most industrial attraction. 32,000 visitors inspected the plant last season. The sugar harvesting season for 1950-51 got under way on Oct. 23 when cane graving started. The present crop is approximately one million tons.

The greatest sugar cane harvest in Florida's history got underway October 23 with the official opening of the huge Sugar House of the United States Sugar Corporation at Clewiston.

Approximately one million tons of cane is expected to be harvested this season, it was announced by H. T. Vaughn, executive vice president and general manager of the corporation. This is the highest estimate ever made and tops the 1949-50 season when 979,000 tons were harvested.

Labor to harvest the tremendous crop is beginning to arrive and a plentiful supply has been assured, said Mr. Vaughn. As in the past, all available domestic labor will be used and the remaining necessary

to go and to see. Many of those taking this tour have directed thousands of people to Florida but have never visited this state themselves. Now they will have an opportunity to see with their own eyes just what Florida has to offer the motor tourist.

Martin L. Holloway, manager of the Tampa Motor Club and president of the Southeastern AAA Conference, is handling the tour arrangements with AAA officials of Jacksonville, Miami and St. Petersburg.

Splendid assistance has also been extended by hotel and motor club operators, members of the Florida Attractions Association, chambers of commerce and other civic groups. The week-long Florida visit will serve a dual purpose, offering the group five busy days of sightseeing in chartered air-conditioned Greyhound buses and including a two-day travel school to be held in St. Petersburg.

Starting from Jacksonville the morning of Sunday November 19, the first stop will be historical St. Augustine where they will be shown such attractions as the St. Augustine Alligator Farm, the Oldest House, Fountain of Youth, the Light House, Marine Studios and other points of interest.

They will be guests of Daytona Beach for luncheon and then will proceed from this famous resort city to central

ed tour of the Sugar Mill, Sugarland Ranch and cane plantations.

Traveling through the rich vegetable growing area around Lake Okechobee they will turn south through the Glades to arrive in Miami late that evening. After two days in the Miami area the party will move on U. S. Highway No. 1 stopping at McKee Jungle Gardens and other points of interest, and conclude the tour at Jacksonville.

The purpose of this tour and travel school is to provide these travel counselors with first-hand information about Florida so that they can intelligently answer questions about this state and its attractions and help tourists plan their trips to best advantage.

They cannot help but return to their counselling jobs enthusiastic Florida boosters and can speak with authority telling inquirers that they have personally visited the state and know what they are talking about.

Florida is indebted to Marvin Holloway and his AAA associates for bringing these folks to Florida. It is hoped that they will be able to depend on it these counselors will direct thousands to Florida in the months ahead any suggest that they see all of the state while they are here.

"A cool dry winter would be the most favorable for the crop," Mr. Vaughn said, "as dry weather has a tendency to halt the growth of the cane and to increase its sugar content. Barring a freeze or other unexpected weather hazard, this season will be the biggest in our history."

Florida's beautiful lake and citrus area. Following a brief stop at Leesburg they will visit Silver Springs where they will be overnight guests of Ray and Davidson.

Swinging to the West Coast the next day they will visit Rainbow Springs, Nature's Fish-bowl at Homosassa Springs and will be entertained with a water-ballet in the underwater theatre at Weekiwahe Spring.

The group will spend two days in St. Petersburg where they will attend the travel school of the AAA National Touring Bureau. A one-day side trip will carry them across the Bee-Line Ferry for a visit to Bradenton, and then to Sarasota where they will be luncheon guests of the Sarasota Chamber of Commerce. Here they will also visit the Ringling Museum of Art and Sarasota Jungle Gardens, returning to St. Petersburg that evening.

They will leave early the next morning, enjoy breakfast in Tampa, and move on to Cypress Gardens where they will be luncheon guests of Dick Pope and witness a special water-show.

Moving on to Bok Tower they will then journey south through the beautiful ridge section. Arriving in Clewiston late that afternoon, they will be guests of the United States Sugar Corporation for a Thanksgiving dinner at the Clewiston Inn, following a personally conducted

How Does Christian Science Heal?

Would you like to learn more about this religion: how it heals disease, banishes fear, solves personal and business problems? This is your opportunity to hear the facts presented in a

Free Lecture
entitled

**"Christian Science: Its Revelation
Of Divine Sonship"**

by Ralph E. Wagers, C.S.B.
of Chicago, Ill.

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston Massachusetts.

Sunday, Nov. 26
At 3:15 P. M.

In Everglades Theatre

First Church of Christ, Scientist,
Belle Glade, Florida

Cordially Invites You to Attend

Ask Your Gas Station Man!

**OLDSMOBILE'S "ROCKET" ENGINE RUNS
WITH SMOOTHNESS, POWER AND ECONOMY ON
GASOLINE AVAILABLE EVERYWHERE TODAY!**

Here's a question we'd like you to ask, next time you drive in for gas: "What do you think of Oldsmobile's 'Rocket' Engine?" Chances are, the attendant will tell you that the "Rocket" tops its field in smoothness, quietness, and quick-acting power. He'll probably explain that the "Rocket" high-compression design gives it that thrilling response. We're sure he'll tell you that the "Rocket" uses gasoline available everywhere today—and makes every gallon go a long way! Your gas station man knows his engine, and he knows motor car values, too. That's why we think he'll tell you: "Yes, sir, mister—Oldsmobile's a smart deal!"
